Sequence 18, Application US/09330235

| Sequence 18, Application US/09330235
| Patent NO. 6459018
| GENERAL INFORMATION:
| APPLICANT: Knutzon, Debbie
| TITLE OF INVENTION: POLYUNSATURATED FATTY ACIDS IN PLANTS
| FILE REFERENCE: MOCO.156.00US
| CURRENT APPLICATION NUMBER: US/09/330,235
| CURRENT FILLING DATE: 1999-06-10
| PRIOR APPLICATION NUMBER: 60/089,043
| PRIOR APPLICATION NUMBER: 60/089,043
| PRIOR FILING DATE: 1998-06-12
| SOPTWARE: PatentIn version 3.0
| SEQ ID NO 18
| SERVING NO 18
| LENGTH: 457
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      RESULT 15
